The countdown to the end of Area 51: Myth or Reality begins! The National Atomic Testing Museum's popular exhibit is beaming up in the Fall and to celebrate the museum staff is introducing the last few Area 51 Special Lectures.

The first of these talks is titled *Exploring Dreamland: A history of Area 51* and will be held in the museum lobby on July 18, 2015 at 7:00 pm with a meet and greet taking place at 6:00 pm.

Renowned UFO experts Noe Torres and Ruben Uriarte will explore Area 51's hidden history and present astounding personal stories, top-secret documents, and MORE! Noe and Ruben are authors and investigators that have both been featured on various television shows and documentaries airing on the History Channel and Discovery Channel.
